Policy Consultation & Review

This policy is available on our website via a link to Community Academies Trust website and is available on request from the school office. We also inform parents and carers about this policy when their children join our school and through our school newsletter.

The policy is provided to all staff (including temporary staff and volunteers) at induction alongside our Staff Code of Conduct. In addition, all staff are provided with Part One and Annex A of the statutory guidance ['Keeping Children Safe in Education'](#), DfE (2016).

This policy will be reviewed in full by CAT at least annually.

Context

This school recognises its responsibility to have a clear and secure framework in place to safeguard and promote the welfare of children.

Practitioners who work with children in this school will read this policy within the framework of the following guidance:

- Keeping Children Safe in Education: Statutory Guidance 2016
- Working Together to Safeguard Children (2015) Statutory Guidance
- Staffordshire Safeguarding Children's Board Policies and Procedures
- What to do if you're worried a child is being abused (2015)

Through their day-to-day contact with pupils and their direct work with families, all staff and volunteers in school have a crucial role to play in noticing indicators of possible abuse or neglect at an early stage.

This policy sets out how the school's Governing Body discharges its statutory responsibilities relating to safeguarding and promoting the welfare of children who are pupils at this school. Our policy applies to all staff; paid and unpaid, working in the school including Governors. It is consistent with Staffordshire Safeguarding Children's Board (SSCB) procedures.

Purpose and Aims

The purpose of this safeguarding policy is to ensure that we are:

- **Building resilience**
Raising awareness of child protection issues and equipping children with the language and skills needed to keep themselves safe;

Establishing a safe environment in which children can learn and develop within an ethos of openness;
- **Supporting vulnerable pupils**
Supporting pupils who have been abused, have witnessed violence towards others or may be vulnerable to abuse

- **Preventing unsuitable people from working with children**

Ensuring we practise safe recruitment in checking the suitability of staff and volunteers to work with children.

We will follow the procedures set out by the Staffordshire Local Safeguarding Children's Board and take account of guidance issued by the DfE to:

- Safeguard and promote the welfare of children;
- Protect children and young people at our school from maltreatment;
- Prevent impairment of our children and young people's health or development;
- Ensure that children and young people at our school grow up in circumstances consistent with the provisions of safe and effective care;
- Offer children a balance curriculum including PHSE and Relationships and Sex Education (RSE);
- Offer children and young people a balanced curriculum through online activities, enabling them to enhance their skills and knowledge whilst understanding the risks;
- Understand that no single professional can have the full picture of a child's needs and circumstances. Everyone who comes into contact with children and their family has a role to play in identifying concerns, sharing information and taking prompt action;
- Undertake the role so as to enable children and young people at our school to have best outcomes;
- Have a clear understanding of our staffing group knowledge and understanding to embed safeguarding through systems so that safeguarding is a robust element of our school;
- Monitor and review process that the Governance arrangements of the school manage/develop;
- Ensure that the voice of the child is evident in case files and informs schools policy developments.

This policy has been developed to give clear direction to staff, volunteers, visitors/contractors and parents about expected behaviour and our legal responsibility to safeguard and promote the welfare of all our children at our school. We have a commitment to safeguarding/child protection in a multi-agency environment.

The first step is to be alert to the signs of abuse and neglect, to have read this document and to understand the procedures set out in our school and by Staffordshire Safeguarding Children's Board. Staff members should also consider what training would support them in their role to fulfil this duty.

Ethos

The child's welfare is of paramount importance; we are a child centred school.

We maintain a professional attitude of ‘it could happen here’ where safeguarding is concerned. When concerns about the welfare of a child, staff members will always act in the best interests of the child. This policy has been developed in conjunction with our school culture of prevention, protection and support.

Our school will continue to maintain an ethos where pupils feel secure, are encouraged to talk, are listened to and feel safe. Children at our school are encouraged to talk freely with any staff member if they are worried or concerned about something. We follow the guidance: [what-to-do-if-you-are-worried-a-child-is-being-abused](#)

We prioritise raising awareness of child protection issues and equipping children with the language and skills needed to keep them safe. We also seek to establish a safe environment in which children can learn and develop within an ethos of openness.

Safeguarding Definitions

Everyone who comes into contact with children and their families has a role to play in safeguarding children. We recognise that staff at our school play a particularly important role as they are in a position to identify concerns early and provide help for children to prevent concerns from escalating. We have also developed systems, as described in ‘Working Together to Safeguard Children 2015’, to prevent concerns from escalating.

The school follows the Staffordshire Safeguarding Children’s Board policies and procedures.

Roles and Responsibilities

The Governing Body and Headteacher are accountable for ensuring the effectiveness of this policy and school compliance. They have appointed a Designated Safeguarding Lead (DSL) who is part of the Strategic Leadership Team. The Governing Body and Headteacher monitor this post to ensure the post holder has the time and resources required to fulfil the duty.

The Designated Safeguarding Lead/Deputy Designated Safeguarding Lead job description is outlined in Annex B of KCSiE 2016. The Designated Safeguarding Lead/Deputy Designated Safeguarding Lead has shared the content of KCSiE Part one and ,where necessary, Annex A with all staff and is confident that all individuals have the knowledge and understanding to carry out their roles appropriately. The designated safeguarding lead training is compliant with SSCB training strategy. [Training-Quality-Strategies](#)

The Governing Body ensures that the DSL understands they have the responsibility in leading Safeguarding and Child Protection across the school. This individual has the appropriate status, authority, funding, resources, training and support to provide advice and guidance to all staff members within the school on child welfare and child protection. The DSL/Deputy DSLs receive appropriate and regular supervision from the Strategic Leadership Team and external services, as appropriate.

The Governing Body ensures that the school is compliant with their 175/157 return to the Local Authority/Staffordshire Safeguarding Children Board. Any areas of concern in safeguarding are identified and an action plan/risk assessment is developed annually. The Governing Body ensures the school contributes to inter-agency working in line with [working-together-to-safeguard-children](#) (2015) appropriately.

The Governing Body ensures safer recruitment procedures that include the requirement for appropriate checks in line with national guidance (see: [Safeguarding Children and Safer Recruitment in Education Booklet](#))

The Governing Body has an overview of the training schedule and future training requirements. All staff, volunteers and Governors receive an induction which includes basic safeguarding training, compliant with [Staffordshire Safeguarding Board](#). All staff, volunteers and Governors sign to say that they have read and understood the code of conduct annually and Keeping Children Safe in Education 2016, Part One and Annex A, as required. The school has developed a system in line with guidance below to ensure that regulated and non-regulated activities and staff supervision is understood across the school. The identification of volunteers, students, visitors can be clearly identified by our visitor system. [Regulated Activity in relation to Children](#).

Community Academies Trust ensures there is a current Whistleblowing Policy and the Headteacher ensures that staff have access to a copy and have the opportunity to raise concerns. There is a culture evident in school to raise concerns about poor or unsafe practice and such concerns are addressed professionally and sensitively in accordance with agreed whistle blowing procedures.

The Governing Body/Headteacher ensures all staff are aware of the NSPCC [whistleblowing-helpline](#). This is available for staff who do not feel able to raise concerns regarding child protection failures internally. Staff can call: 0800 028 0285 which is available from 8:00 am to 8:00 pm, Monday to Friday and Email: help@nspcc.org.uk.

The following link may also prove useful: [Staffordshire Professionals Procedures whistle blowing Arrangements for Safeguarding Children](#) (section 2D)

The Governing Body/Headteacher has a schedule of policies and procedures and set reviews timetabled annually to ensure they are current. The DSL coordinates the updates with the training schedule to support the culture of learning for all staff/volunteers.

The Governing Body/Headteacher ensures teaching staff are aware of their responsibility in reporting the disclosure of Female Genital Mutilation(FGM) that appears to have been carried out directly to Police. [Government publications mandatory-reporting-of-female-genital-mutilation-procedural-information](#) Teaching staff are required to inform the DSL of notification to the Police. Further guidance to be found on [multi-agency-statutory-guidance-on-female-genital-mutilation](#) (Female Genital Mutilation Act 2003)

The school/Governing Body must have identified a number of Deputy Designated Safeguarding Leads who are trained at the same standard as the Designated Safeguarding Lead. The Designated Safeguarding Lead can delegate activities to the Deputy Designated Safeguarding Lead, yet the ultimate responsibility still remains with the Designated Safeguarding Lead; the lead responsibility is never delegated. In the absence of the Designated Safeguarding Lead, the Deputy Designated Safeguarding Lead will take the lead on Safeguarding with clear direction from the Strategic Leadership Team.

Designated Safeguarding Lead/Deputy Designated Safeguarding Lead

The DSL will carry out their roles in accordance with [Keeping Children Safe in Education 2016](#)

Management of referrals: The DSL continually develops an understanding of the community the school serves, the risks and resilience. They will have an understanding of staffing, volunteers, Governance arrangements and training needs for safeguarding across the school, updating the Governing Body and Headteacher at least every term.

The DSL will refer cases of suspected abuse to Local Authority Children's Social Care, First Response, as required. They will represent School at Child Protection Conferences and Core Group Meetings. The DSL will be the expert within the school to support staff in liaising with other agencies and making assessments and referrals. Any staff member may be required to be part of strategy discussions and other interagency meetings and to contribute to the assessment of children.

The DSL will support staff in making referrals to Local Authority Children's Social Care, First Response.

The DSL will refer cases to the Channel programme where there is a radicalisation concern as required. They will also support staff who make referrals to the Channel programme.

The DSL will refer cases where a person is dismissed or has left the school due to a risk/harm to a child to the Disclosure and Barring Service, as required. They will also refer cases where a crime may have been committed to the Police, as required.

The DSL will maintain robust systems to monitor and record training of all staff and volunteers. This will be reviewed annually and appropriate time scales of refresher training are evident. Training is delivered in-line with [Training-Quality-Strategies](#). This will include bulletins, briefings and inset day training as well as external events attended, where applicable to role. Regular updates are shared with staff.

The DSL will ensure all staff and regular visitors have training on how to recognise indicators of concern, how to respond to a disclosure from a child and how to record and report this information accurately. Staff/volunteers will not make promises to any child and will not keep secrets. Every child will know what the adult will have to do with any information they have chosen to disclose to a staff member/volunteers.

The DSL monitors the paper and electronic case management systems set up to record cause for concerns on students to ensure the quality of information is accurate, proportionate, and timely also assessment/referrals are made appropriately. The recording and storing of information is kept in line with [the-data-protection-act](#). Safeguarding and child protection records are kept separate from academic records. There is a clear recorded process of transfer of records to new schools. Chronologies of case management are at the front of all children/young people's files; this ensures a recognition of cumulative low level concerns which need to be monitored.

The DSL has systems for case management which are detailed, accurate, secure written/electronic records of concerns and referrals; there is also a system to monitor the quality through the regular auditing of case files. All systems are compliant with [the-data-protection-act](#).

The DSL has a clear system for Child Protection (section 47), Child in Need (section 17) and Early Help Assessment (EHA/CAF) files being removed from school and returned.

The DSL will share information regarding risks to students proportionately with staff members/volunteers on a need to know basis and when in the child's best interest. The DSL will clearly state reasons for sharing this information and that this is carried out in strict confidentiality. We follow [safeguarding-practitioners-information-sharing-advice](#).

The DSL ensures systems are in place to induct new staff/governors is robust and monitored.

The DSL understands and supports the school with regards to the requirements of the Prevent Duty and is able to provide advice and support to staff on protecting children from the risk of radicalisation. The school's Online Safety Policy links with this requirement.

All staff will have access to resources/bulletins and attend any relevant or refresher training courses to update their professional development within safeguarding. The DSL coordinates this centrally. The Teachers' Standards 2012 [teachers-standards](#) state that teachers, including Headteachers, should safeguard children's wellbeing and maintain public trust in the teaching profession as part of their professional duties. [Training-Quality-Strategies](#). All staff are encouraged to have SSCB as their favourite on their computer and to access updates regularly as part of professional development. [Staffordshire Safeguarding Children's Board](#)

The school encourages a culture of listening to children and taking account of their wishes and feelings, in order to protect them. The DSL has developed systems to ensure, through case reviews, the children's voice have been heard. [Staffordshire Professionals Procedures](#)

Working with Others

The DSL will liaise with the headteacher to provide updates on issues, especially ongoing enquiries and police investigations, under section 47 of the Children Act 1989.

The DSL notifies Children's Social Care if a child with a Child Protection Plan is absent for more than two days without explanation.

The DSL as required, will liaise with the "case manager" and the Designated Officer (LADO) at the Local Authority for Child Protection concerns relating to a staff member.

The DSL will liaise with staff on matters of safety and safeguarding and when deciding whether to make a referral will liaise with relevant agencies. They will act as a source of support, advice and expertise for staff. Risk assessments will be completed as required and should, where appropriate, involve other agencies.

Where a parent chooses to remove their child/ren from school to be Elected Home Educators (EHE) the school will make arrangements to pass any safeguarding concerns to the EHE Team within Staffordshire County Council and inform other professionals who are involved.

At times school may require further assistance from interpreters to support child and families. These services will be accessed with the support of the DSL.

Working with Parents/Carers

School is committed to working in partnership with parents/carers to safeguard and promote the welfare of child/ren and to support them to understand our statutory responsibilities in this area.

When new pupils join our school, parents and carers will be informed that we have a Child Protection and Safeguarding Policy. A copy will be provided to parents on request and is available via a link on the school website. Parents and carers will be informed of our legal duty to assist our colleagues in other agencies with Child Protection enquiries and what happens should we have cause to make a referral to Families First Services or other agencies.

We are committed to working with parents positively, openly and honestly. We ensure that all parents are treated with respect, dignity and courtesy. We respect parents' rights to privacy and confidentiality and will not share sensitive information unless we have permission or it is necessary to do so in order to safeguard a child from harm.

We will seek to share with parents any concerns we may have about their child unless to do so may place a child at increased risk of harm. A lack of parental engagement or agreement regarding the concerns the school has about a child will not prevent the Designated Safeguarding Lead making a referral to social care, Families First in those circumstances where it is appropriate to do so.

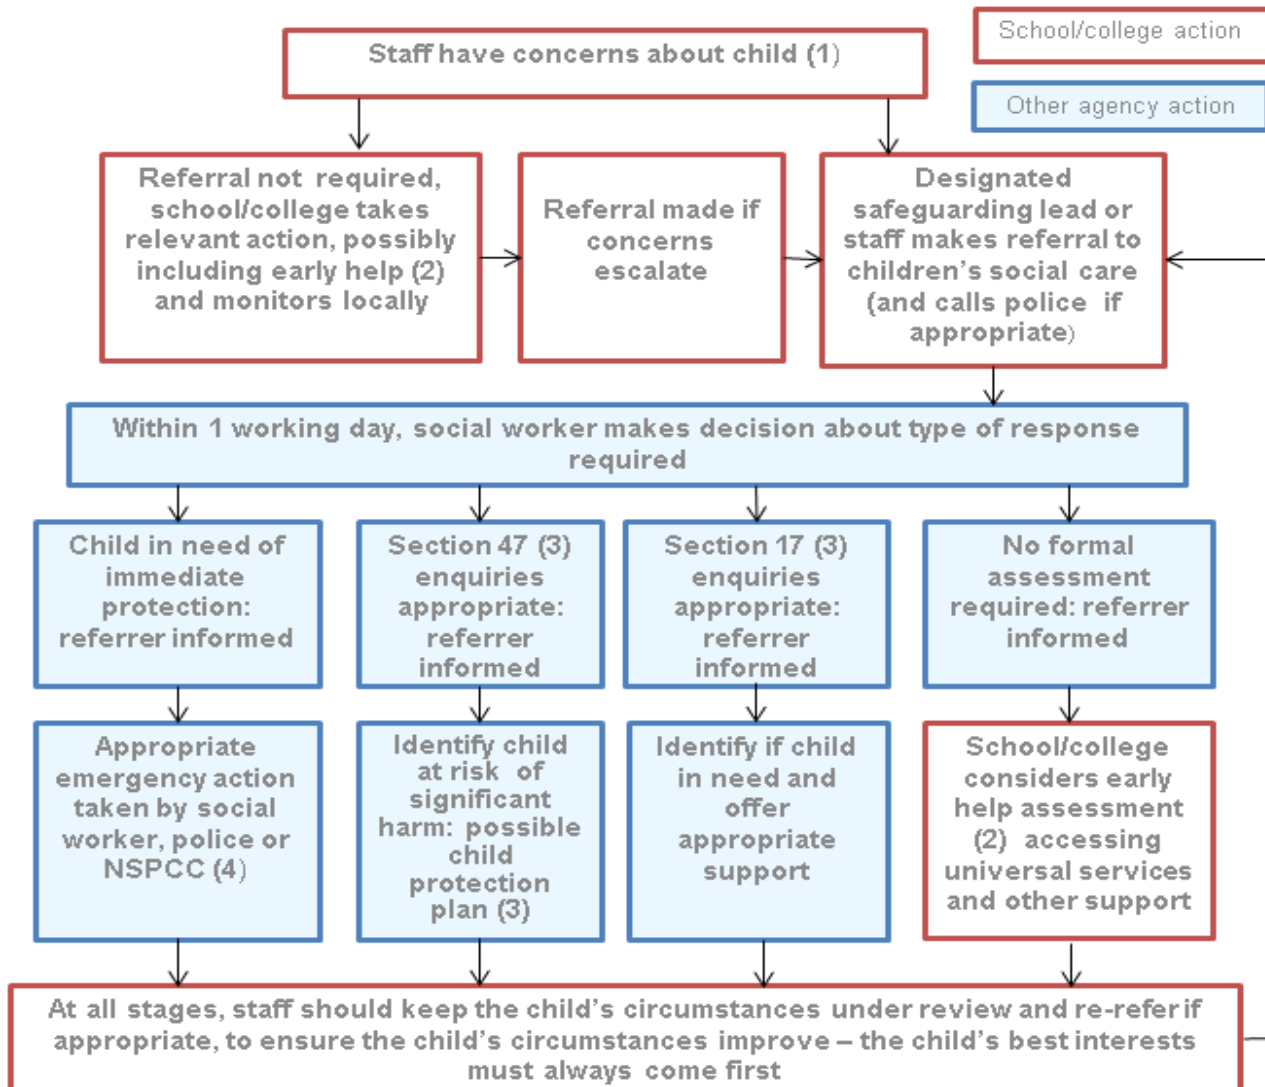

In order to keep children safe and provide appropriate care for them, the school requires parents to provide accurate and up to date information regarding:

- Full names and contact details of all adults with whom the child normally lives;
- Full names and contact details of all persons with parental responsibility (if different from above);
- Emergency contact details (if different from above);
- Full details of any other adult authorised by the parent to collect the child from school (if different from the above);
- Any legal or criminal changes which affects parental responsibility e.g. Bail condition, court orders, Multi - Agency Risk Assessment Conference (MARAC).

The school will retain this information on pupils' files; we will only share information about pupils with adults who have parental responsibility for that pupil or where a parent has given permission and the school has been supplied with the adult's full details in writing.

Procedures for Managing Concerns

Actions where there are concerns about a child

All staff are encouraged to report any concerns that they have and not see these as insignificant. On occasions, a referral is justified by a single incident such as an injury or disclosure of abuse. More often however, concerns accumulate over a period of time and are evidenced by building up a picture of harm over time; this is particularly true in cases of emotional abuse and neglect. In these circumstances, it is crucial that staff record and pass on concerns in accordance with this policy to allow the Designated Safeguarding Lead to build up a picture and access support for the child at the earliest opportunity. Further guidance can be found in [Staffordshire Thresholds-and-CAF/Thresholds-and-Early-Help](#) document.

The signs of child abuse might not always be obvious and a child might not tell anyone what is happening to them. You should therefore question behaviours if something seems unusual and try to speak to the child, alone, if appropriate, to seek further information, following the guidance [What to do if you're worried a child is being abused](#). If a child reports, following a conversation you have initiated or otherwise, that they are being abused and neglected, you should listen to them, take their allegation seriously, and reassure them that you will take action to keep them safe. You will need to decide the most appropriate action to take, depending on the circumstances of the case, the seriousness of the child's allegation and the local multi-agency safeguarding arrangements in place.

All concerns about a child/ young person or family should be reported without delay and recorded in writing or via an electronic system using an agreed template without delay, informing the DSL and following the school's procedure.

Following receipt of any information raising concern, the DSL will consider what action to take and seek further advice from First Response or Education Safeguarding Advice Service (ESAS) as required. All information and actions taken, including the reasons for any decisions/actions made, will be fully documented on the child's record.

It is not the responsibility of the school to investigate welfare concerns or determine the truth of any disclosure or allegation. All staff, however, have a duty to recognise concerns and pass the information on in accordance with the procedures outlined in this policy.

If they have any concerns about a child staff members are encouraged to have a conversation with the DSL to agree a course of action, although any staff member can make a referral to Children's Social Care or the Police. Other options could include a referral to specialist services or early help services and should be made in accordance with the referral threshold set by the Staffordshire Safeguarding Children Board.

If anyone other than the DSL makes the referral they should inform the DSL, as soon as possible. The Local Authority should make a decision within one working day of a referral being made about what the next stages are.

Any member of staff who does not feel that concerns about a child have been responded to appropriately and in accordance with the procedures outlined in this policy or SSCB, should raise their concerns with the Headteacher or Governing Body. If any member of staff does not feel the situation has been addressed appropriately at this point should contact First Response directly with their concerns, using the hyperlink below which directs you to your local children's social care contact number. [Report-child-abuse-to-local-council](#)

[Escalation-Procedure \(section 7A\)](#)- Staffordshire Safeguarding Children Board expects members of staff working directly with families to share information appropriately and work to plans agreed in all relevant forums. Good practice includes the expectation that constructive challenge amongst colleagues within agencies and between agencies provides a healthy approach to the work. Where members of staff from any agency feel concerns regarding a child are not being addressed it is expected that the escalation process should be used until a satisfactory conclusion is reached.

The process of resolution should be kept as simple as possible and the aim should be to resolve difficulties at a professional level wherever possible. It should be recognised that differences in status and experience may affect the confidence of some workers to pursue this course of action and support should be sought from the school's DSL.

Early Help Assessments (EHAs)

The DSL will ensure staff are aware of the [Staffordshire Early Help Strategy](#)/process, and understand their role in it. This includes identifying emerging problems, liaising and sharing information with other professionals to support early identification and assessment and, wherever possible and appropriate, acting as the lead professional in undertaking an early help assessment.

Every member of staff, including volunteers working with children at our school, are advised to maintain an attitude of '*professional curiosity and respectful uncertainty*' where safeguarding is concerned. When concerned about the welfare of a child, staff members should always act in the interests of the child and have a responsibility to take action as outlined in this policy.

Early help is a key part of a wider continuum of engagement with families and will work alongside universal services. For early intervention to be successful each stage of the process must be carried out well and followed through by every person who works with children, young people and families and who has an individual responsibility for early help.

Practitioners should complete an Early Help Assessment (EHA) when:

- Age appropriate progress is not being made and the causes are unclear or development progress is being met
- The support of more than one additional agency is needed to meet the child or young person's needs.
- Child/ren do not meet safeguarding of SSCB threshold yet concerns are emerging e.g. attendance, behavioural, academic progress, change in behaviour

The school's EHA lead may need to make a referral directly to other agencies, or request the support of Staffordshire County Council Local Support Team (LST). The school will inform the LST Co-ordinator when an EHA has been started, and when it is closed, irrespective of whether or not there is an LST worker involved with the family. This is so that a record of that involvement can be maintained. It also enables the Safeguarding Children's Board to monitor the contribution made by school to the provision of Early Help across the county.

The Designated Safeguarding Lead meets with the Families First officer that is linked to the school on a regular basis to discuss concerns and any additional children who may need to access further support. These meetings are recorded and detailed in the appropriate pupils' files. This opportunity enables a clear assessment of additional support and services that could offer further guidance.

Guidance on Responding to a Child Disclosing Abuse

The following list should be used as advice for teachers in the event that a child discloses information relating to abuse that they may be suffering:

- Stay calm
- Listen carefully to what is said

Approved by the Board of Directors on: 24 May 2018

Page 13 of 48

Review date: May 2020

- **Do not promise to keep secrets** - Find an appropriate early opportunity to explain that it is likely that the information will need to be shared with others.

NB: If the child is Fraser/Gillick competent (i.e. they have a good understanding of the situation and are intelligent enough to deal with the situation on their own.) then staff members should not inform parents or guardians if the young person does not agree to this.

- **Allow the child to continue at her/his own pace**
- **Only ask questions for clarification purposes** -at all times avoid asking questions that suggest a particular answer
- **Reassure the child that they have done the right thing in telling you**
- **Tell them what you will do next** and with whom the information will be shared
- **Record in writing what was said** using the child's own words as soon as possible - note date, time, any names mentioned and to whom the information was given and ensure that the record is signed and dated.
- In the case that a child or adult discloses any information regarding abuse that they may have suffered, the information should be passed onto the school's Designated Safeguarding Lead. If the DSL is not available, any urgent concerns should be passed on to the relevant social services authority or the Police.

Types and Signs of Abuse

As a school we are aware that safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases multiple issues will overlap with one another. Abuse is a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others (e.g. via the internet). They may be abused by an adult or adults or another child or children.

Physical abuse is a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse is the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning, or preventing the child from participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children

frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual abuse involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males; women can also commit acts of sexual abuse, as can other children.

Neglect is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to:

- provide adequate food, clothing and shelter (including exclusion from home or abandonment);
- protect a child from physical and emotional harm or danger;
- ensure adequate supervision (including the use of inadequate care-givers); or
- ensure access to appropriate medical care or treatment.

It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Keeping Children Safe in Education (2016) - Specific Safeguarding Issues

All staff in our school have an awareness of safeguarding issues, some of which are listed below. We ensure our staff are aware that behaviours linked to issues such as drug taking, alcohol abuse, truanting and sexting can put children in danger. All staff are aware that the Designated Safeguarding Lead, the expert within our School, is there to support staff, volunteers and the Governing Body.

All school staff are aware safeguarding issues can manifest themselves via peer on peer abuse. This is most likely to include, but not limited to: bullying (including cyber bullying), gender based violence, sexual assaults and sexting. Further guidance on peer on peer abuse can be found in our behaviour policy.

Expert and professional organisations are best placed to provide up-to-date guidance and practical support on specific safeguarding issues. For example, information for schools can be found on the [TES](#), [MindEd](#) and the [NSPCC](#) websites. School and college staff can access government guidance as required on the issues listed below via GOV.UK and other government websites:

- Bullying including cyberbullying
- Children missing education
- Child missing from home or care
- Child sexual exploitation (CSE)
- Domestic violence

- Drugs
- Fabricated or induced illness
- Faith abuse
- Female genital mutilation (FGM)
- forced marriage
- Gangs and youth violence
- Gender-based violence/violence against women and girls (VAWG)
- Hate
- Mental health
- Missing children and adults
- Private fostering
- Preventing radicalisation
- Relationship abuse
- Sexting
- Trafficking

For further details, see 'Keeping Children Safe in Education', 2016, paragraph 43.

Child Protection (section 47)

If the Local Authority have reasonable cause to suspect that a child is suffering, or likely to suffer, significant harm, they have a duty to make enquires under section 47 of the Children Act 1989 to enable them to decide whether they should take any action to safeguard and promote the child's welfare. This duty also applies if a child is subject to an emergency protection order (under section 44 of the Children Act 1989) or is in police protective custody under section 46 of the Children Act 1989.

Detailed information on statutory assessments can be found in Chapter 1 of 'Working Together to Safeguard Children'. [Staffordshire Managing-Individual-Cases](#) (section 3E)

Children's Services will convene a Child Protection Conference once a child protection enquiry under Section 47 of the Children Act 1989 has been undertaken and the child is judged to be at continuing risk of significant harm. A review conference will take place once a child has been made the subject of a Child Protection Plan in order to monitor the safety of the child.

DSLs/DSLs may be asked to attend a Child Protection Conference or core group meetings on behalf of the school in respect of individual children. In any event, the person attending is required to have as much relevant up to date information/case files about the child as possible; any member of staff may be

required to contribute to this process. The representative attending must contribute on behalf of their agency a recommendation on the risks/protective factors for the family from their factual information and must provide a view on a need for a Child Protection Plan.

All reports for Child Protection Conferences will be prepared in advance using the guidance and education report template provided by Families First Service. The information contained in the report will be shared with parents before the conference as appropriate and will include information relating to the child's physical, emotional and intellectual development and the child's presentation at school. In order to complete such reports, all relevant information will be sought from staff working with the child in school through the Designated Safeguarding Lead.

Clearly Child Protection Conferences can be upsetting for parents. We recognise that we are likely to have more contact with parents than other professionals involved. We will work in an open and honest way with any parent whose child has been referred to Families First Services or whose child is subject to a Child Protection Plan. Our responsibility is to promote the protection and welfare of all children and our aim is to achieve this in partnership with our parents.

Child in Need (section 17)

A 'Child in Need' referral should be considered where the needs of the child are unlikely to be met under an EHA, such as a child with complex disabilities, when a social work led assessment is required.

Section 17 of the Children Act says that an assessment for services should be undertaken by the Local Authority in the following circumstances:

- Child/ren are unlikely to achieve or maintain, or to have opportunity to achieve or maintain a reasonable standard of health or development, without the provision of services by a local authority.
- Their health or development is likely to be impaired, or further impaired without the provision of such services.
- They are disabled.
- Where prevention strategies have been designed and monitored without desired outcomes being met.

If the DSL considers that the welfare concerns indicate that a 'Child in Need' referral is appropriate, he/she will speak with parents / young person and obtain their consent for referral to the First Response Team (FRT) ([Staffordshire Thresholds-for-Intervention-Guidance](#)) or the appropriate social care team if a different authority, to request an assessment. If parents refuse to give consent, but the child's needs are not being met, the DSL will discuss the issues with the FRT.

Appropriate school staff should be invited to participate in Child in Need (CIN) meetings convened by Children's Social Care when children are deemed to require section 17 services.

Curriculum

Through our curriculum we provide activities and opportunities for children to develop the skills they need to identify risks and stay safe. This is extended to include material which encourages our young people to develop essential life skills. We provide a varied curriculum through Assemblies, through our PSHE programme and more widely through every day lessons and interactions with young people, enabling us to highlight issues such as British values, Sex and Relationship Education, online safety and Social, Moral, Spiritual and Cultural (SMSC) aspects of learning.

It is the responsibility of every staff member, supply staff, volunteer and regular visitor to the school to carry out the requirements of this policy so that we can provide a safe environment in which children can learn.

Safer Recruitment

We ensure that the Headteacher and at least one member of the Governing Body have completed appropriate safer recruitment training. At all times the Headteacher and Governing Body will ensure that safer recruitment practices are followed in accordance with the requirements of *'Keeping Children Safe in Education'*, DfE (2016). This includes ensuring that appropriate checks are carried out on all prospective employees in line with national guidance.

The school uses the recruitment and selection process to deter and reject unsuitable candidates. We require evidence of original academic certificates. We do not accept testimonials and insist on taking up references prior to appointment. We always question the contents of application forms if we are unclear about them. We undertake Disclosure and Barring Service checks and use any other means of ensuring we are recruiting and selecting the most suitable people to work with our children.

We maintain a Single Central Register of all safer recruitment checks carried out in line with statutory requirements. Guest visitors will also be checked in-line with statutory requirements and risk assessed robustly. The Governing Body checks the SCR on a termly basis record and reporting accuracy and actions to SLT and Governance.

Safer Working Practice

All adults who come into contact with our children have a duty of care to safeguard and promote their welfare. There is a legal duty placed upon us to ensure that all adults who work with or on behalf of our children are competent, confident and safe to do so.

All staff including supply/volunteers will be provided with a copy of our school's Code of Conduct at induction. They will be expected to know our school's Code of Conduct and policy for positive handling and carry out their duties in accordance with this advice. There may be occasion when some form of physical contact is inevitable, for example if a child has an accident or is hurt or is in a situation of danger to themselves or others around them. However, at all times the agreed policy for safe restraint must be adhered to. A list of staff that have accessed Staffordshire physical intervention training will be kept by the Headteacher/Designated Safeguarding Lead and updated in-line with Staffordshire policy. All incidents will be recorded in-line with guidance.

If staff, visitors, volunteers or parent helpers are working with children alone they will, wherever possible, be visible to other members of staff. They will be expected to inform another member of staff of their whereabouts in school, who they are with and for how long. Doors, ideally, should have a clear glass panel in them and be left open.

Guidance about acceptable conduct and safe practice will be given to all staff and volunteers during induction. These are sensible steps that every adult should take in their daily professional conduct with children. This advice can be found in 'Guidance for Safer Working Practices for Adults who work with Children and Young People in Educational settings', DCSF, March 2009. All staff and volunteers are expected to carry out their work in accordance with this guidance and will be made aware that failure to do so could lead to disciplinary action.

Educational Visitors to School

The school will undertake risk assessment and use their professional judgement and experience when deciding whether to seek an enhanced DBS for any volunteer not engaging in regulated activity. We follow guidance for non-regulated activities and will consider:

- what we know about the individual/company, including formal and informal information offered by staff, parents, other establishments or volunteers;
- whether the individual/company has other employment or undertakes voluntary activities where references can be provided and suitability recorded;
- whether the role is eligible for an enhanced DBS check.

We decide the level of supervision required through risk assessment - the supervision will be "reasonable in all the circumstances to ensure the protection of children", as stated in KCSIE 2016.

Managing Allegations against Staff, Peer on Peer & Volunteers

The Governing Body ensures there are procedures in place to manage allegations of abuse against staff members, peer on peer and Headteachers. Our aim is to provide a safe and supportive environment which secures the wellbeing and very best outcomes for the young people at our school. We do recognise that sometimes the behaviour of adults may lead to an allegation of abuse being made.

Peer-on-peer abuse is captured in four key definitions (Firmin 2013a):

- The definition for domestic abuse (Home Office 2013) relates to young people aged 16 and 17 who experience physical, emotional, sexual and/or financial abuse, and coercive control, in their intimate relationships.
- The definition for child sexual exploitation (DCSF 2009) captures young people aged under-18 who are sexually abused in the context of exploitative relationships, contexts and situations by a person of any age - including another young person.
- The definition for young people who display harmful sexual behaviour refers to any young person, under the age of 18, who demonstrates behaviour outside of their normative parameters of development. This includes, but is not exclusive to abusive behaviours. (Hackett 2011, NICE 2014)

- Serious youth violence is defined with reference to offences (as opposed to relationships/contexts) and captures all those of the most serious in nature. (London Safeguarding Children Board 2009)

The term peer-on-peer abuse can refer to all of these definitions. Any response to peer on peer abuse needs to cut across these definitions and capture the complex web of young people's experiences.

Our response to peer on peer abuse needs to have a holistic assessment of both/all of the young people's needs; an assessment of the 'perpetrator' of the abuse will also be required if they are under the age of 18.

The assessment of risk, and subsequent interventions with young people, need to recognise that individual experiences do not cause the abuse that they experience, but may be used by others who have power over them.

We are clear as a school in our understanding of consent:

The Sexual Offences Act 2003 states consent is 'if she or he agrees by choice, and has the freedom and capacity to make that choice'. There are three important parts to this:

- Choice - a deliberate decision;
- Capacity to consent. e.g. Is the person old enough? Are they intoxicated by alcohol or affected by drugs?
- Whether a person makes their choice freely, without manipulation, exploitation or duress

In all cases, the law is clear that it is the responsibility of the person seeking consent who has the responsibility to ensure that the other person agrees by choice and has the freedom and capacity to make that choice.

Allegations sometimes arise from a differing understanding of the same event, but when they occur they are distressing and difficult for all concerned. We also recognise that many allegations are genuine and there are some adults who deliberately seek to harm or abuse children.

We will take all possible steps to safeguard our children and to ensure that the adults in our school are safe to work with children. We will always ensure that the procedures outlined in *Staffordshire Safeguarding Children's Board Protocol: Managing Allegations of Abuse Against Persons who Work with Children and role of LADO* and Part 4 of '*Keeping Children Safe in Education*', DfE (2016) are adhered to and will seek appropriate advice from the Local Authority Designated Officer (LADO). The LADO can be contacted on 0800 1313126.

If an allegation is made or information is received about an adult who works in our setting which indicates that they may be unsuitable to work with children, the member of staff receiving the information should inform the Headteacher immediately. Should an allegation be made against the Headteacher, this will be reported to the Chair of the Governing Body. In the event that neither the Headteacher nor Governing Body is contactable on that day, the information must be passed to a Director of Community Academies Trust, as stated in the Whistleblowing Policy.

The Headteacher or Chair of Governors will seek advice from the LADO within one working day. No member of staff or Governing Body will undertake further investigations before receiving advice from the LADO.

Any member of staff or volunteer who does not feel confident to raise their concerns with the Headteacher or Chair of Governors should contact **the LADO directly on 0800 1313126.**

The School has a legal duty to refer to the Disclosure and Barring Service anyone who has harmed, or poses a risk of harm, to a child, or if there is reason to believe the member of staff has committed one of a number of listed offences, and who has been removed from working (paid or unpaid) in regulated activity, or would have been removed had they not left. The DBS will consider whether to bar the person. If these circumstances arise in relation to a member of staff at our school, a referral will be made as soon as possible after the resignation or removal of the individual in accordance with advice from the LADO and/or HR. The DSL has a responsibility to inform the Disclosure and Barring Service.

Vulnerable Children - including Children who are Looked After

We recognise that our safeguarding responsibilities are clearly linked to our responsibilities for ensuring that appropriate safeguarding responses are in place for children who are absent from school or who go missing from education. We will inform the local authority of any pupil who fails to attend school regularly, or who has been absent without school permission for a continuous period of ten school days or more. We also recognise that safeguarding against radicalisation and extremism is no different to safeguarding against any other vulnerability in today's society. Our staff are alert to signs to look out for and the individual triggers to be aware of when considering the risks of potential safeguarding concerns, such as travelling to conflict zones, FGM and forced marriage.

As a school we are aware that the potential for children with SEND may have additional barriers when it comes to safeguarding, the school recognises that this group can be more vulnerable to abuse and neglect. The warning signs and symptoms of child abuse and neglect can vary from child to child. Disabled children may be especially vulnerable to abuse, including because they may have an impaired capacity to resist or avoid abuse. They may have speech, language and communication needs which may make it difficult to tell others what is happening. Children also develop and mature at different rates so what appears to be worrying for a younger child might be normal behaviour for an older child. Parental behaviours may also indicate child abuse or neglect, so we should also be alert to parent-child interactions which are concerning and other parental behaviours. This could include parents who are under the influence of drugs or alcohol or if there is a sudden change in their mental health. By understanding the warning signs, we can respond to problems as early as possible and provide the right support and services for the child and their family. It is important though, to recognise that a warning sign doesn't automatically mean a child is being abused.

Heightened vulnerability is linked to:

- Poor communications skills
- A lack of maturity (Lower cognitive ability)
- Limited perceptions of intent from others
- Lower self-esteem/confidence
- Potential to trust unreservedly
- A need to have "friends" or find a partner

- Unclear boundaries
- Poor understanding of online safety - digital technology
-

A combination of these factors can make young people more susceptible to risks.

All children, including disabled children and children with impairments and additional needs, deserve the opportunity to achieve their full potential. In support of this it is important that their needs are considered in the same way as for any other child and as outlined in 'Working Together to Safeguard Children', 2015.

Children have said that they need:

- **Vigilance:** to have adults notice when things are troubling them;
- **Understanding and action:** to understand what is happening; to be heard and understood; and to have that understanding acted upon;
- **Stability:** to be able to develop an on-going stable relationship of trust with those helping them;
- **Respect:** to be treated with the expectation that they are competent rather than not;
- **Information and engagement:** to be informed about and involved in procedures, decisions, concerns and plans;
- **Explanation:** to be informed of the outcome of assessments and decisions and how they have been reached, positive or negative;
- **Support:** to be provided with support in their own right as well as a member of their family;
- **Advocacy:** to be provided with advocacy to assist them in putting forward their views.

Looked After Children - Staffordshire's Virtual School for Looked After Children provides a support and challenge role for schools and Local Authority teams in the form of staffing support; access to additional resources to support educational outcomes; information, advice and guidance (especially around Personal Education Plans); monitoring and tracking of educational outcomes and targets, and training and support at key transitional moments. Initiated by 'Care Matters, Time for Change', (2007), all Local Authorities are advised to support the raising of the educational attainment and achievement of their Looked After Children through the overarching support of a Virtual School. The responsibility for each child's education, target setting, learning and teaching remains with the schools where they are enrolled.

The Governing Body must ensure that the Designated Teacher for Looked After Children undertakes appropriate training (section 20(2) of the Children and Young Persons Act, 2008).

The Role of the Designated Teacher [Designated-teacher-for-looked-after-children](#)

The Designated Teacher plays a crucial role leading the responsibility for helping school staff understand the things which affect how looked after children learn and achieve. The Designated Teacher:

- promotes a culture of high expectations and aspirations for how looked after children learn;
- makes sure the young person has a voice in setting learning targets;
- is a source of advice for staff about differentiated teaching strategies appropriate for individual children, making full use of Assessment for Learning;
- makes sure that looked after children are prioritised in one-to-one tuition arrangements and that carers understand the importance of supporting learning at home;
- has the lead responsibility for the development and implementation of the child's personal education plan (PEP) within the school.

Workforce and Development

As a school we have a clear framework of supporting and training our staff. On an annual basis all staff receive an appraisal which includes identification of training needs across the safeguarding agenda. We also have an annual training schedule which is developed to meet the needs of all staff. This allows us to provide bespoke training and ensures a robust culture in safeguarding across the school.

We have a clear induction process for staff, volunteers and Governors which includes reading and understanding the Code of Conduct and 'Keeping Children Safe in Education', Part 1 and Annex A. Induction also includes basic safeguarding training which looks at the role of the Designated Safeguarding Lead, signs and symptoms of abuse, how to manage/record a disclosure from a child and issues around confidentiality.

Governors, Headteachers and school leaders, including the DSL and Deputy DSLs all receive a full copy of KCSiE which they are expected to read and understand. They also receive a session which explains how the guidance is implemented and monitored by the Governing Body, Headteacher, SLT and the DSL.

As a school we have developed systems to ensure that staff training and quality assurance systems around safeguarding are robust and monitored by Governing Body.

Training - Designated Safeguarding Lead

The DSL/Deputy DSLs should undergo training to provide them with the knowledge and skills required to carry out the role. This training should be updated at least every two years. The DSL role is crucial in enabling all staff members in having an understanding of the impact and diversity of safeguarding issues. The DSL will develop and monitor systems to update staff, pupils and families.

The Designated Safeguarding Lead should undertake Prevent awareness training, have clear understanding of risk assessment and update as appropriate.

In addition to the formal training set out above, their knowledge and skills should be refreshed at regular intervals, as required, but at least annually, to allow them to understand and keep up with any developments relevant to their role so that they:

- understand the assessment process for providing early help and intervention, for example through locally agreed common and shared assessment processes such as early help assessments;
- have a working knowledge of how local authorities conduct a child protection case conference and a child protection review conference and be able to attend and contribute to these effectively when required to do so;
- have an understanding of the lesson learnt from SCR (serious case reviews) and how best to implement the learning.

This professional development might be via e-bulletins, meeting other DSLs or simply taking time to read and digest safeguarding developments.

Raising Awareness

The DSL should ensure the school's child protection policies are known, understood and used appropriately.

The DSL and Governors must ensure that the school's Child Protection and Safeguarding Policy is reviewed annually (as a minimum) and that the procedures are updated, implemented and reviewed regularly, in liaison with Community Academies Trust's Strategic Leader of Education.

The DSL must ensure that the Child Protection and Safeguarding Policy is available publicly and that parents are aware that referrals about suspected abuse or neglect may be made and the role of the school in this.

The DSL has links with SSCB and has contact names of all school representatives on the Board and its sub groups and can influence the work of the Board. This school adopts local policies on safeguarding and training opportunities.

Availability of the Designated Safeguarding Lead

During term time the DSL or a deputy is available, during school hours, for staff in the school to discuss any safeguarding concerns. We also have cover arrangements in place for any out of hours/out of term concerns. This information is shared with the Local Authority.

Communication - Confidentiality/Information Sharing

At all times we will work in partnership and endeavour to establish effective working relationships with parents, carers and colleagues from other agencies in line with 'Working Together to Safeguard Children', 2015. The school works closely with social care from the relevant local authority, to conduct, or to consider whether to conduct, a section 17 or a section 47 assessment.

As a school we recognise the importance of information sharing between professionals and local agencies. We follow best practice guidance:

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/419628/Information_sharing_advice_safeguarding_practitioners.pdf

The Data Protection Act places a duty on organisations and individuals with regards to processing personal information fairly and lawfully. As a school we adhere to data protection laws yet this does not prevent us from promoting the welfare and protecting the safety of children in our care.

Managing Complaints

As a Trust we have a [Complaints Policy](#) which states clearly the stages of complaints and where to escalate concerns. As a school we encourage children and families to raise with us any concerns or comments and we have a robust internal investigation process which we will use to resolve matters. Safeguarding concerns should be raised with school immediately. If a concern or a child is at immediate risk then the individual needs to contact the MASH. All visitors are given a safeguarding leaflet which outlines how to share concerns and also outlines the code of conduct expected by all visitors.

Site Security

We provide a secure site which is controlled by precise management directives, but the site is only as secure as the people who use it. Therefore, all people on the site have to adhere to the rules which govern it to avoid potential problems to safeguarding. Therefore:

- where possible, gates are kept closed during the school day;
- visitors and volunteers must only enter through the main entrance and after signing in at the office will be issued with a school lanyard or visitor's pass. The school has a clear system of ensuring visitors are accompanied/supervised by a regulated staff member. Any visitor on site who is not identifiable via a visitors' pass will be challenged by any staff member and this will be reported to a member of the Leadership Team;
- family members attending functions have access only through the front foyer, with tickets for visitors for appropriate school events;
- children will only be allowed home with adults with parental responsibility or confirmed permission;
- empty classrooms should have closed windows and doors;
- children under 16 should never be allowed to leave school alone during school hours unless collected by an adult such as a parent who is doing so for a valid reason. The parent/carer should report to Reception to do this;
- at least two members of staff are always on duty at break times;
- a Health and Safety audit is completed annually with risk assessment. This forms part of Governors' Report;
- school has a clear system of risk assessments and review timescales of these.

Early Years Foundation Stage (EYFS) Framework - Early Years' Providers only

This framework is mandatory for all early years' providers (from 1 September 2014), including Academies.

Every child deserves the best possible start in life and the support that enables them to fulfil their potential. Children develop quickly in the early years and a child's experiences between birth and age five have a major impact on their future life chances. A secure, safe and happy childhood is important in its own right. Good parenting and high quality early learning together provide the foundation children need to make the most of their abilities and talents as they grow up.

The EYFS sets the standards that all early years' providers must meet to ensure that children learn and develop well and are kept healthy and safe. It promotes teaching and learning to ensure children's 'school readiness' and gives children the broad range of knowledge and skills that provide the right foundation for good future progress through school and life.

All our staff are aware there is an expectation to disclose any convictions, cautions, court orders, reprimands and warnings that may affect their suitability to work with children (whether received before or during their employment at the setting). Providers must not allow people, whose suitability has not been checked, including through a criminal records check, to have unsupervised contact with children being cared for.

As a school we ensure at least one person who has a current paediatric first aid certificate must be on the premises and available at all times when children are present, and must accompany children on outings.

There is a clear policy on the use of mobile phones on school premises, available on request.

Appendix 1 - Key Legislation

This policy has been devised in accordance with the following legislation and guidance:

Appendix 2 - Safeguarding Agendas (including national and local hyperlinks)

Bullying, including Cyberbullying

Bullying may be defined as deliberately hurtful behaviour, usually repeated over a period of time, where it is difficult for those bullied to protect themselves. It can take many forms but the main types are:

- physical (e.g. hitting, kicking, theft)
- verbal (e.g. racist or homophobic remarks, threats, name-calling)
- emotional (e.g. isolating an individual from the activities and social acceptance of their peer group)

“The damage inflicted by bullying (including cyberbullying via the internet) can frequently be underestimated. It can cause considerable distress to children, to the extent that it affects their health and development or, at the extreme, causes them significant harm (including self-harm). Information and Communication Technology (ICT), now more commonly referred to as Digital Technology, enables children and young people to learn, play, communicate and explore the world in fantastic new ways and many children and young people are now skilled in using digital technology including computers, tablets, mobile phones and gaming machines. However, with this new technology there are new risks so it is important that we have understanding around [preventing-and-tackling-bullying](#).

Everyone who is responsible for the welfare and safety of children needs to understand what these risks are and how we can all work together to enjoy these new technologies safely.” As in any other area of life, children and young people are vulnerable and may expose themselves to danger - knowingly or unknowingly - when using the internet and other digital technologies. Indeed, some young people may find themselves involved in activities which are inappropriate or possibly illegal. [Staffordshire online bullying](#) (Section 6C)

Sexting

Sexting is when a young person takes an indecent images of themselves and sends this to their friends or boy/girlfriends via mobile phones. [Sexting/what-is-sexting](#)

The problem is that once taken and sent, the sender has lost control of these images and these images could end up anywhere. They could be seen by the child’s future employers, their friends or even by paedophiles. The Child Exploitation and Online Protection (CEOP) Command’s Thinkuknow programme provides resources, training and support for professionals who work directly with children and young people.

By having in their possession, or distributing, indecent images of a person under 18 on to someone else, young people are not even aware that they could be breaking the law as these are offences under the Sexual Offences Act 2003.

[Staffordshire Further-Guidance-for-Practitioners](#) (section C)

Children Missing Education

All professionals working with children, as well as the wider community can help by remaining vigilant to children's safety. The law states every child should be receiving an education, and we stand a better chance of ensuring a child's safety if we know where and how they are receiving this. The Education and Inspections Act 2006 places a duty on local authorities in England and Wales to make arrangements to identify children and young people of compulsory school age [Children-missing-education](#) in their area; we work closely with the Local Authority to ensure we put appropriate safeguarding responses in place for children who go missing from education, as detailed in our Attendance Policy, available on request.

Child Missing from Home or Care

There are strong links between children involved in sexual exploitation and other behaviours such as running away from home or care, bullying, self-harm, teenage pregnancy, truancy and substance misuse. In addition, some children are particularly vulnerable, for example, children with special needs, those in residential or foster care, those leaving care, migrant children, particularly those who are unaccompanied, those forced into marriage, those involved in gangs and unaccompanied asylum seeking children. The majority of children who go missing are not in care and go missing from their family home. However, children who are looked after are much more likely to run away than those who live at home, and over 50% of young people in care have run away at some point. This is not to presume that the care system necessarily causes young people to run away. In many cases, a pattern of running away may have been established at an early age and may have been a factor in the young person's admission to care. It is also important to remember that the majority of looked-after children do not go missing. [Children-who-run-away-or-go-missing-from-home-or-care](#)

Whilst each case needs to be considered on its merits, children who run away are at a heightened risk of being victims of crime, being sexually exploited, being involved in substance misuse or of becoming involved in crime and disorder. Additionally, research shows that the level of risk to the individual child escalates with each episode they go missing and repeat episodes have been identified as a significant indicator of high risk to the child or young person. [Staffordshire Welfare-Safety-of-Children-in-Specific-Circumstances](#) (section 4G)

Child Sexual Exploitation (CSE)

"CSE is when a child/young person is used by being tricked into doing something sexual, sometimes receiving something in return like love, affection, money, drugs or alcohol." National Working Group #SaySomething Campaign. [what-to-do-if-you-suspect-a-child-is-being-sexually-exploited](#)

[Staffordshire Promoting-the-Welfare-Safety-of-Children-in-Specific-Circumstances](#) (section 4H)

Staffordshire dedicated website has further resources: www.knowaboutcse.co.uk

Domestic Violence

This encompasses any incident or pattern of incidents of controlling, coercive or threatening behaviour, violence or abuse between those aged 16 or over who are or have been intimate partners or family members, regardless of gender or sexuality. This can include, but is not limited to, the following types of abuse:

- psychological
- physical
- sexual
- financial
- emotional

This definition, which is not a legal definition, includes so called 'honour' based violence, female genital mutilation (FGM) and forced marriage, and is clear that victims are not confined to one gender or ethnic group.

[Domestic-violence-and-abuse](#) is a generic term to describe a wide range of intentional behaviours used by one individual to control and dominate another with whom they have had, wished to have, or are currently in a close intimate, family or other type of relationship. It does not only relate to married or co-habiting couples, and it frequently continues after a relationship has ended. A significant number of women and children are no safer when they leave an abusive home, and for very many it is known that the level of violence and abuse can escalate. [Staffordshire promoting-the-Welfare-Safety-of-Children-in-Specific-Circumstances](#) (section 4N)

Relationship Abuse

Domestic abuse is one of the key priorities of the Community Safety Partnership's throughout the County of Staffordshire. The Community Safety Partnerships, which are made up of multi-agency members, have agreed to use the Home Office definition of domestic abuse:

“Any incident of threatening behaviour, violence or abuse (psychological, physical, sexual, financial or emotional) between adults, aged 18 and over, who are or have been intimate partners or family members, regardless of gender and sexuality.” [relationship-abuse/what-is-relationship-abuse](#)

However, the Staffordshire Police definition of domestic abuse is: “Any incident of threatening behaviour, violence or abuse (psychological, physical, sexual, financial or emotional) between partners and ex-partners aged 16 years and over, who are or have been intimate partners, regardless of gender and sexuality.” [Staffordshire Individuals-who-pose-a-Risk-to-Children](#) (section 5D)

Drugs

There is evidence that children and young people are increasingly misusing alcohol and illegal drugs. [Drugs-advice-for-schools](#). Consequences of drug and alcohol misuse range from non-attendance and poor attainment at school, poor health, committing crime to support 'habits' and also increased risk of being a victim of violent crime and sexual exploitation.

Working with Parent who misuse substances [Staffordshire Promoting-the-Welfare-Safety-of-Children-in-Specific-Circumstances](#) (section 4Q)

Approved by the Board of Directors on: 24 May 2018

Page 31 of 48

Review date: May 2020

Fabricated or Induced Illness

Fabricated or Induced Illness is a condition whereby a child suffers harm through the deliberate action of their carer and which is attributed by the adult to another cause.

There are three main ways of the parent/carer fabricating or inducing illness in a child:

- **Fabrication** of signs and symptoms, including fabrication of past medical history;
- **Fabrication** of signs and symptoms and **falsification** of hospital charts, records, letters and documents and specimens of bodily fluids;
- **Induction** of illness by a variety of means.

Harm to the child may be caused through unnecessary or invasive medical treatment, which may be harmful and possibly dangerous, based on symptoms that are falsely described or deliberately manufactured by the carer, and lack independent corroboration. The emotional impact of this on the child should always be considered. There may be a number of explanations for these circumstances and each requires careful consideration and review. [safeguarding-children-in-whom-illness-is-fabricated-or-induced](#).

Concerns about a child's health should be discussed with a health professional who is involved with the child. [Staffordshire Promoting-the-Welfare-Safety-of-Children-in-Specific-Circumstances](#) (section 4R)

Faith Abuse

[National-action-plan-to-tackle-child-abuse-linked-to-faith-or-belief](#) Child abuse which has links to faith or belief includes: beliefs in concepts of witchcraft and spirit possession, demons or the devil acting through children or leading them astray (traditionally seen in some Christian beliefs), the evil eye or djinns (traditionally known in some Islamic faith contexts) and Dakini (in the Hindu context); ritual or multi murders where the killing of children is believed to bring supernatural benefits or the use of their body parts is believed to produce potent magical remedies; and use of belief in magic or witchcraft to create fear in children to make them more compliant when they are being trafficked for domestic slavery or sexual exploitation. This is not an exhaustive list and there will be other examples where children have been harmed when adults think that their actions have brought bad fortune, such as telephoning a wrong number which is believed by some to allow malevolent spirits to enter the home. Abuse linked to a belief in spirit possession can be hard for professionals to accept and it may be difficult to understand what children are likely to be experiencing; it can often take a number of visits or contacts to recognise such abuse. [Staffordshire Guidance-for-Practitioners](#) (section D)

Female Genital Mutilation (FGM)

[Multi-agency-statutory-guidance-on-female-genital-mutilation](#) FGM is known by a number of names including "female genital cutting", "female circumcision" or "initiation". The term female circumcision suggests that the practice is similar to male circumcision, but it bears no resemblance to male circumcision, has serious health consequences and no medical benefits. There is a mandatory reporting duty for staff specifically for FGM as stated by the [Serious Crime Act 2015](#).

FGM is also linked to domestic abuse, particularly in relation to “honour based violence”. [Staffordshire Promoting-the-Welfare-Safety-of-Children-in-Specific-Circumstances](#) (section M)

Forced Marriage

[Guidance forced-marriage](#) There are some significant differences between the referral of a concern about a young person being forced into marriage and other child protection referrals. Professionals must be aware that sharing information with a young person’s parents, extended family or members of their community, could put the young person in a situation of significant risk. Any disclosure that indicates a young person may be facing a forced marriage must be taken seriously by professionals who should also realise that this could be ‘one chance to save a life’. A forced marriage is a marriage in which one or both spouses do not consent to the marriage but are coerced into it. Duress can include physical, psychological, financial, sexual and emotional pressure. In cases of vulnerable adults who lack the capacity to consent to marriage, coercion is not required for a marriage to be forced. [Staffordshire Promoting-the-Welfare-Safety-of-Children-in-Specific-Circumstances](#) (section 4L)

Gender-based Violence/Violence Against Women and Girls (VAWG) - [violence-against-women-and-girls](#)

Too many women are still victims of domestic and sexual violence. We must help young people to understand what a healthy relationship is and to re-think their views of controlling behaviour, violence, abuse, sexual abuse and consent. [Strategy-to-end-violence-against-women-and-girls-2016-to-2020](#)

Hate - [Educate against hate](#)

A hate crime is a crime committed against someone because of their:

- Disability
- race or ethnicity
- religion or belief
- sexual orientation
- transgender identity
- alternative subculture

Schools must be alert to this and ensure that where concerns are raised that these are investigated thoroughly and followed up rapidly to ensure victims are protected.

Gangs and Youth Violence - [Advice-to-schools-and-colleges-on-gangs-and-youth-violence](#)

The Policing and Crime Act 2009 (‘the 2009 Act’) contains provisions for injunctions to prevent gang-related violence and gang-related drug dealing activity to be sought against an individual; these commenced in January 2011.

The Crime and Security Act 2010 contains provisions for breach of an injunction to be enforced against 14 to 17 year olds; the Crime and Courts Act 2013 moved jurisdiction for these proceedings from the County Court to the Youth Court.

The Serious Crime Act 2015 contains provisions that amend the statutory definition of what comprises a “gang”, as defined in section 34(5) of Part IV of the Policing and Crime Act 2009, and expands the scope of the activity a person must have engaged in, encouraged or assisted, or needs to be protected from, before a gang injunction can be imposed to include drug dealing activity. Locally, the following definition of gangs, as included within Dying to Belong (Centre for Social Justice, 2009), has been adopted:

A relatively durable, predominantly street-based group of young people who:

- see themselves (and are seen by others) as a discernible group and
- engage in a range of criminal activity and violence

They may also have any or all of the following factors:

- identify with or lay claim over territory;
- have some form of identifying structural feature;
- are in conflict with other, similar, gangs.

Mental Health - [Mental-health-and-behaviour-in-schools](#)

This non-statutory advice clarifies the responsibility of the school, outlines what they can do and how to support a child or young person whose behaviour - whether it is disruptive, withdrawn, anxious, depressed or otherwise - may be related to an unmet mental health need.

Further information on parenting capacity and mental health can be found in [Staffordshire Promoting-the-Welfare-Safety-of-Children-in-Specific-Circumstances](#) (section 40)

Missing Children and Adults Strategy - [Missing-children-and-adults-strategy](#)

Research has shown that children are more likely than adults to go missing, placing them in risky situations and increasing their vulnerability to a whole range of issues, including homelessness, becoming a victim or perpetrator of crime and, as we are increasingly aware, placing many of these vulnerable young people at greater risk of child sexual exploitation.

[Staffordshire Promoting-the-Welfare-Safety-of-Children-in-Specific-Circumstances](#) (section 4G)

Private Fostering

A privately fostered child, being under the age of 16 (18 if disabled), is cared for and provided with accommodation by someone other than a parent, person with parental responsibility or a close relative-defined in the [Children-act-1989-private-fostering](#) or the Safeguarding Vulnerable Groups Act 2006 as a grandparent, brother, sister, aunt or uncle (whether of full blood or half blood or by marriage) or by step parent. The intention should be that the placement lasts for 28 days or more. If, as a school we are aware of private fostering arrangements we will request that DBS checks are made by the regulated activity provider. [Staffordshire Promoting-the-Welfare-Safety-of-Children-in-Specific-Circumstances](#) (section 4E)

Preventing Radicalisation - [Prevent-duty-guidance](#)

The current threat from terrorism in the United Kingdom can involve the exploitation of vulnerable people, including children of all ages, young people and adults to involve them in terrorism or activity in support of terrorism. Violent Extremism is defined by the Crown Prosecution Service (CPS) as: "The demonstration of unacceptable behaviour by using any means or medium to express views, which: Encourage, justify or glorify terrorist violence in furtherance of particular beliefs; seek to provoke others to terrorist acts; encourage other serious criminal activity or seek to provoke others to serious criminal acts; foster hatred which might lead to inter-community violence in the UK."

[Staffordshire Guidance-for-Practitioners](#) (section 6L)

Trafficking - [Safeguarding-children-who-may-have-been-trafficked-practice-guidance](#)

Human trafficking is defined by the UNHCR guidelines (2006) as a process that is a combination of three basic components:

- Movement (including within the UK);
- Control, through harm / threat of harm or fraud;
- For the purpose of exploitation.

The Palermo Protocol establishes children as a special case for whom there are only two components - movement and exploitation. Any child transported for exploitative reasons is considered to be a trafficking

victim - whether or not s/he has been deceived, because it is not considered possible for children to give informed consent.

‘Child’ refers to children anyone below 18 years of age.

A child may be trafficked between several countries in the EU or globally, prior to being trafficked into/within the UK. The child may have entered the UK illegally or legally (i.e. with immigration documents), but the intention of exploitation underpins the entire process. Child victims may be indigenous UK nationals, European Union [EU] nationals from any country outside the EU. [Staffordshire Promoting-the-Welfare-Safety-of-Children-in-Specific-Circumstances](#) (section 4k)

De-escalation - Restrictive Physical Intervention

The expectation is that as far as possible schools and young people's settings and services will be restraint free. Poorly or incorrectly used, restrictive physical interventions are a source of risk to the young person and members of staff. The correct use of restrictive physical interventions must always be an act of last resort and not normal practice and be based on the best needs of the individual. Schools and settings should take all reasonable actions to reduce the potential need to use restrictive physical interventions as far as practicable.

An individual behaviour support plan, which may support or be part of an Individual Healthcare Plan, should be written for children and young people whose behaviour presents a significant challenge. This plan should detail the steps that are being taken to address the individual's particular social, emotional and learning needs. It should also include the steps that staff should take to de-escalate challenging situations as well as what they should do if these steps are not successful ('an incident management plan'). The individual behaviour support plan should consider risks and how they are being minimised and managed.

Reduction in the need to use Restrictive Physical Interventions is achieved by analysing the interactions between each young person/pupil and their environment which identifies potential triggers that need to be avoided at critical periods. This involves:

- Helping young people to avoid possible situations known to provoke challenging behaviour;
- Having education plans/care programmes which are responsive to individual needs;
- Creating opportunities for service users/pupils to engage in meaningful activities which include opportunities for choice and a sense of achievement;
- Developing staff expertise in working with individuals that present challenges.
- Understanding that behaviour is often a method of communication

[Staffordshire restrictive physical intervention](#)

[Staffordshire restrictive physical intervention forms](#)

Online Safety

The use of technology has become a significant component of many safeguarding issues. The internet can be a fantastic place for children and young people where they can talk to friends, be creative and have fun. However, just like in the real world sometimes things can go wrong. Working with our children we use the curriculum to help develop skills in identifying and avoiding risk, learning how best to protect themselves and their friends, and knowing how to get support and report abuse if they do encounter difficulties.

[Staffordshire Further-Guidance-for-Practitioners](#) (section C)

The Governing Body and Headteacher have systems in place to limit children's exposure to safeguarding issues through ICT safeguards. We have filters and monitoring systems in place and these are regulated

Approved by the Board of Directors on: 24 May 2018

Page 36 of 48

Review date: May 2020

and risk assessed as part of the Prevent Duty. We have an Online Safety Policy which identifies the usage and expected behaviour of children/students. As a school we appreciate the value of technology and that appropriate filters are in place, yet this does not lead to unreasonable restrictions which would limit online teaching and safeguarding.

Appendix 3 - Related Policies

To underpin the values and ethos of our school and our intent to ensure that pupils at our school are appropriately safeguarded the following policies are also included under our safeguarding umbrella:

- Staff Code of Conduct
- Behaviour Policy
- Anti-Bullying Policy
- Use of Reasonable Force (Physical Intervention) Policy
- Recruitment & Selection Policy
- Whistleblowing Policy
- Educational Visits Policy
- Attendance Policy
- Online Safety Policy
- Health and Safety Policy
- Meeting the Needs of Pupils with Medical Conditions Policy
- First Aid Policy
- Mobile Phone Policy (Early Years Framework 2014)

MASH - Child protection

0800 1313 126

8:30am - 5:00pm Monday to Thursday

8:30am - 4:30pm Friday

- Have you got a serious concern about the safety of a child or young person up to the age of 18?
- Do you think a child or young person is being harmed or is at risk of being harmed?
- Are you worried that a child is living in circumstances where they are treated badly and not cared for properly?

If you've answered yes to any of these questions and you don't believe that the child or young person is being supported by a Social Worker, please contact the First Response Service immediately.

Please note: If the child you are calling about already has a dedicated Social Worker please contact them directly in the first instance.
